

Regulation Compliance Statement

POLIMAXX

SP100

Acrylonitrile Butadiene Styrene (ABS)

Product Manufacturer

This product is manufactured by IRPC Public Company Limited which our product is originally produced in Thailand.

Global Chemical Substances Inventory

This polymer is listed on the following global chemical substances inventories. For more information on the components of this product, please refer to Section 15 of the Product Safety Data Sheet (SDS). (<https://polimaxx.irpc.co.th/>)

Country	Name of Chemical Substance Inventory
Australia	Australian Inventory of Chemical Substances (AICS)
Canada	Domestic Substance List/Non-Domestic Substance List (DSL/NDSL)
China	Inventory of Existing Chemical Substances Produced or Imported in China (IECSC)
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS) / European List of Notified Chemical Substances (ELINCS)
Japan	Japanese Existing and New Chemical Substances Inventory (ENCS/MITI)
New Zealand	New Zealand Inventory (NZIoC)
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)
South Korea	Korean Existing Chemicals List (KECI)
Taiwan	Taiwan Chemical Substance Inventory (TCSI)
U.S.	Toxic Substances Control Act Inventory (TSCA)

Please contact Technical Service & Product Development Division or send an email to polimaxx.technical@irpc.co.th for the status of other country inventories.

REACH (Regulation (EC) No. 1907/2006)

Under REACH, this product is considered preparation as well as polymer which are generally regarded as representing a low concern due to their high molecular weight, this group of substances is exempted from registration and evaluation; Nonetheless, manufacturers or importers of polymers in supply chain may still be required to register the monomers. IRPC Public Company Limited has registered our monomers used in the production of our resins using an Only Representative (OR), REACHLaw Ltd Along with other requirements, Article 7 requires that any producer or importer of articles to notify the European Chemical Agency when an article contains Substances of Very High Concern (SVHC) in a concentration above 0,1% (w/w). We do not expect this product to be included any of the chemicals as restricted by the following regulations and their subsequent amendments;

- Candidate List of SVHC
<https://echa.europa.eu/candidate-list-table> (ECHA information update on Jan 23, 2024)
- List of Substances restricted Annex XVII
<https://echa.europa.eu/substances-restricted-under-reach>
- List of substances Annex XIV of REACH ("Authorisation List")
<https://echa.europa.eu/authorisation-list>

Food contact

US

This product meets the Food and Drug Administration (FDA) requirements specification according to US. FDA title 21 Code of Federal Regulations part 181.32 - Acrylonitrile copolymers and resins, test report samples of this product met the determination of amount of residual acrylonitrile to FDA 21 CFE 181.32(b)(3)

To access to the test report, please submit a request via <https://polimaxx.irpc.co.th/> in the "Contact us" page and select the document type "Test Report: US FDA 21 CFR" under "Request Document". According to company policy, the quality control test will be sent the sample every two years or whenever the standards are revised or amended. This is the current set, and it can be referred to. It should be noted that test report documents have no expiration date.

It is the responsibility of the manufacturer/converter/producer to verify that the finished goods comply the requirements of the intended and foreseeable conditions of use. We cannot assure the applicability or accuracy of this information, or the suitability of our product, because user conditions are beyond our control.

China

This product and some of the additives used in the pellet process meet to the requirements of GB4806.6-2016 and/or GB9685-2016 (STANDARD FOR THE USE OF ADDITIVES FOR FOOD CONTACT MATERIALS AND PRODUCTS) and related announcements. Application polymer: Acrylonitrile-styrene copolymer. Item number as listed in Appendix A: 25
There is/are one or more additives used in the pellet process with specific migration limits [SML/ SML (T)/ QM]. To obtain the identity additives information, please contact our Technical Service & Product Development Division or send an email to polimaxx.technical@irpc.co.th

Japan

The Japanese Ministry of Health, Labour, and Welfare (MHLW) has established food standards, additive standards, and a positive list system for food appliances, containers, and packaging. The monomer and the some of the additives used in the pellet process are listed in the Japanese Positive List System accordance with APPENDED TABLES 1 & 2 (the Positive List (PL)) as a list of base polymers, list of monomers and list of additives.

EU

Commission Regulation (EC) No. 1935/2004

IRPC Public Company Limited maintains sales and purchase record through all stages of manufacture, processing and distribution in order to meet the requirement of "traceability" in article 17 of the Regulation 1935/2004/EC.

Commission Regulation (EC) No. 2023/2006 (GMP)

This product has been produced in line with GMP requirements as for: Awareness maintained at all levels, Contamination prevention, Effective Management of Change procedures, Measures applied to ensure that the product is consistently suitable for the intended use. However, this product and manufacturer have not been certified GMP.

Commission Regulation (EC) No. 450/2009 and Regulation (EC) No. 282/2008

This product is not intentionally used recycled plastic and this product applicable to these regulations.

Commission Regulation (EC) No. 1895/2005

Bisphenol A diglycidyl ether (BADGE), bisphenol F diglycidyl ether (BFDGE) and novolac glycidyl ethers (NOGE) are not intentionally use in this product formulation.

Commission Regulation (EC) No. 10/2011

This product meets to with Commission Regulation (EU) No 10/2011 and its amendment (Commission Regulation (EU) No 1282/2011, 1183/2012, 202/2014, 2015/174, 2016/1416, 2017/752, 2018/79, 2018/831, 2019/37, 2019/1338, 2020/1245 and 2023/1442 on plastic materials and articles intended to come into contact with food. This product sample has passed the specific a maximum limit 10 mg/dm² of heavy metal elements (SM) and overall migration test (OM5), condition of contact is 100 degree Celsius, 2 hours (simulants : 3% acetic acid, 10% & 50% ethanol and olive oil).

To access to the test report, please submit a request via <https://polimaxx.irpc.co.th/> in the "Contact us" page and select the document type "Test Report: Commission Regulation (EU) 10/2011" under "Request Document". According to company policy, the quality control test will be sent the sample every two years or whenever the standards are revised or amended. This is the current set, and it can be referred to. It should be noted that test report documents have no expiration date.

The monomers and the additives used in the pellet process are in accordance with the requirements of regulation (EU) No 10/2011 as amended and listed in the Union List of Authorized Substances of Regulation. The following substance(s) are subject to restrictions under this legislation:

- Monomer: FCM No. 223, CAS No. 106-99-0, 1 mg/kg in final product, FCM NO.225, CAS NO. 107-13-1, SML = ND.
- Specific Migration Limit (SML): There is/are one or more additives used in the pellet process with Specific Migration Limit (SML), to obtain the identity additives information please contact our Technical Service & Product Development Division or send an email to polimaxx.technical@irpc.co.th
- Dual Use Additives: Calcium stearate is presented as additive in this product, the type of dual use additive reporting as follow; Dual Use Additive (Additives and flavorings regulated by Regulation 1333/2008/EC, Regulation 1334/2008/EC, Regulation 10/2011/EC Articles 11(3) and paragraph 7 of the Annex IV respectively and amendments): The type of dual use additive reporting the E-Number E470a.

Finished products fabricated with this product must comply with the above restrictions when placed on the market in any of the EU member states or in Non-EU countries which adopted the same legislation.

Thailand

This product meets the requirements of TIS 656-2556: Analytical methods for food contact plastics and Thailand's Ministry of Public Health (MOPH) Notification No. 435/2022: Appendix 1 and 2 migration limitation. It is the responsibility of the manufacturer/converter/producer to submit the finished goods plastic food contact packaging or article for testing. We cannot assure the applicability or accuracy of this information, or the suitability of our product, because user conditions are beyond our control.

The scope of this food contact statement is limited to the regulation details as investigated by our knowledge in this product and does not include the modification, processing, and conversion to produce the finished goods plastic food contact or article. It is the responsibility of the manufacturer/converter/producer to determine and comply the regulatory suitability for food contact compliance when using this product.

The following are the responsibilities of the manufacturer/converter/producer of any finished goods plastic food contact or article, direct or indirect food additive, or food contact substance or article containing this product:

- assuring the finished goods plastic food contact compliance with applicable regulations.
- assuring the finished goods plastic food contact complies with the requirements of the intended and foreseeable any conditions of use.
- the OML and SML determination the finished goods plastic food contact material or article.
- processing and manufactured according to GMP (Good Manufacturing Practice).
- must verify that finished goods plastic food contact or article does not modify the organoleptic properties of the food.

Pharmacopoeias

US Pharmacopoeia Class VI

This product has not been tested for USP Class VI.

European Pharmacopoeia

This product has not been certified or tested to European Pharmacopoeia.

Drug Master File

Information on this product is not listed in a DMF.

Kosher

Although no animal fat and no animal derived materials used in this product, we do not certify the resin to be Kosher or in compliance with Kosher requirements.

Hazardous Substances

Thailand Hazardous Substances Act

The chemical substances in List #4 (Prohibitive Substances) of the Thailand Hazardous Substances Act are not used in the formulation of this product. However, this product is not tested for these substances.

California's Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65)

This product contains the chemicals listed in California Proposition 65 implemented by The office of Environmental Health Hazard Assessment of California Environmental Protection Agency. "Styrene" or/and "Acrylonitrile" or/and "1,3-Butadiene" or/and "Mineral oil" use as raw materials (monomers, additives) for this product. [Residual styrene monomer: 2,000 ppm Maximum or Residual acrylonitrile monomer: 100 ppm Maximum]

Please find the SDS for this product's dangers before using it. The customer shall be responsible for the appropriate, safe and legal use, processing and handling of IRPC's products. IRPC shall not be liable for any false, inaccurate, inappropriate or incomplete data or information presented on this Statement.

<https://oehha.ca.gov/proposition-65/proposition-65-list>

Coalition of Northeastern Governors (CONEG)

We hereby certify that we do NOT intend to use lead, mercury, cadmium and chromium (VI) in this product recipe. Furthermore, this product meets the CONEG requirement of less than 100 ppm for total incidental lead, mercury, cadmium and chromium (VI).

Directive 2011/65/EU (RoHS)

This product complies with the RoHS Directive 2011/65/EU and its subsequent amendments, the restriction of the use of certain hazardous substances in electrical and electronic equipment.

To access to the test report, please submit a request via <https://polimaxx.irpc.co.th/> in the "Contact us" page and select the document type "Test Report: RoHS Directive 2011/65/EU" under "Request Document". According to company policy, the quality control test will be sent the sample every two years or whenever the standards are revised or amended. This is the current set, and it can be referred to. It should be noted that test report documents have no expiration date.

Toys

This product complies with the requirements in CEN Standard EN71-3: 2019 + A1: 2021 and not intentionally add the restricted 19 toxic elements in formulation of this product. This product has been tested and the test result was passed.

ELV Directive 2000/53/EC

The quantity of Cd, Pb, Cr(VI) and Hg present in this product are in compliance with 2005/673/EC, amending Annex II of Directive 2000/53/EC of the European Parliament and of the Council on end-of-life vehicles. A maximum concentration value up to 0,1 % by weight and per homogeneous material, for lead, hexavalent chromium and mercury and up to 0,01 % by weight per homogeneous material for cadmium shall be tolerated.

EU Directive 94/62/EC

According to EU Directive 94/62/EC on Concentration Levels of Heavy Metals Article, Lead, Cadmium, Mercury and Hexavalent Chromium, we hereby certify that we do not use these in our product recipe.

Directive 2009/251/EC

According to the requirement of Member States (2009/251/EC) to ensure that products containing the biocide dimethylfumarate (DMF) are not placed or made available on the market. We hereby certify that we do not intend to use DMF in this product recipe and manufacturing process.

CMR substances/Cosmetic Product

We do not intend to use list of substances banned for use in cosmetic products packaging (CMR substances at the URL below) as from 1 December 2010 (updated July 2015).

<https://ec.europa.eu/docsroom/documents/11382/attachments/1/translations>

Bovine Spongiform Encephalopathy (BSE)/Transmissible Spongiform Encephalopathy (TSE)/"Mad Cow"

The derived from animal sources are not intentionally used in this product recipe.

Tallow

Tallow derived additives are not intentionally used in the manufacture of or formulation of this product.

Natural rubber Latex

"Natural rubber latex", "dry natural rubber" or "rubber that contains natural rubber" are not used in the manufacture of or the formulation of this product.

Animal Derived Materials

We do not intend to use animal derived material in this product recipe.

Ozone Depleting Substances

Ozone depleting substances listed in Annex I and II in the Regulation (EC) No 1005/2009 OF The European Parliament and of the Council of 16 September 2009 on substances that deplete the ozone layer are not intentionally use in the product recipe and manufacturing process.

<https://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=OJ:L:2009:286:0001:0030:EN:PDF>

Moreover, we hereby declare that we do not intend to use the Substances/Chemicals listed below in our product recipe during pellet process,

- Japan CSCL; Class I and Class II Specified Chemical Substances / Japan CSCL: Monitoring Chemical Substance (MCS) / Japan CSCL; Priority Assessment Chemical Substances (PACs) "Styrene" or/and "Acrylonitrile" or/and "1,3-Butadiene" or/and "Mineral oil" use as raw materials (monomers, additives) for this product. [Residual styrene monomer: 2,000 ppm Maximum or Residual acrylonitrile monomer: 100 ppm Maximum]

- Halal

This product was not manufactured from ethanol, pork, or haram ingredients.

The raw materials for producing this product are kept separate from the haram ingredients.

This product's manufacturing equipment is not used to produce any other pork-derived product.

We do not intend to use animal-derived ingredients in product recipe.

However, this product has not been officially certified Halal.

- List of substances subject to POPs Regulation <https://echa.europa.eu/list-of-substances-subject-to-pops-regulation> and POPs listed in the Stockholm Convention [Listing of POPs in the Stockholm Convention](#)

Dechlorane Plus CAS No.13560-89-9, 135821-03-3, 135821-74-8

UV-328 CAS No.25973-55-1

- Fluoroterephthalates, Zonyl fluoroadditives (DuPont trade name), Perfluoroalkyl substances - PFAS (e.g. perfluorooctane sulfonate (PFOS), perfluorooctanoic acid (PFOA), perfluorochemicals (PFC)) or other fluorocarbon substances

- Halogenated Flame Retardants and other: Polybrominated Biphenyls (PBBs), Polybrominated diphenyls (PBDE), Penta-BDE (CAS No. 32534-81-9), Octa-BDE (CAS No. 32536-52-0), Deca-BDE (CAS No. 1163-19-5), Polybrominated Diphenyl Ethers (PBDEs), Polychlorinated Biphenyls (PCBs), Polychlorinated Terphenyls (PCTs), Polychlorinated Naphthalenes (PCNs) and Hexabromo cyclododecane (HBCD, CAS No. 3194-55-6; 25637-99-4), Tetrabromobisphenol A (TBBPA, CAS No. 79-94-7), Tris (1,3-dichloro-2-propyl) phosphate

- Phthalates* or Phthalates Group:

Substances	CAS No.	Substances	CAS No.
DEHP (Di-2-ethylhexyl phthalate)	117-81-7	DIDP (Di-isodecyl phthalate)	26761-40-0
BBP (Benzyl butyl phthalate)	85-68-7	DNOP (Di-N-octyl phthalate)	117-84-0
DBP (Di-butyl phthalate)	84-74-2	DMP (Dimethyl phthalate)	131-11-3
DIBP (Di-isobutyl phthalate)	84-69-5	DEP (Diethyl phthalate)	84-66-2
DINP (Di-isononyl phthalate)	28553-12-0	DPP (Dipentyl phthalate)	
DCHP (Dicyclohexyl phthalate)		DIPP (Diisopentyl phthalate)	
DAP (Diallyl phthalate)		BDP (Butyl decyl phthalate)	
DIOP (Diisooctylphthalate)		N-pentyl-isopentyl phthalate	
Bis (2-methoxyethyl) phthalate		Diisobutyl phthalate	

- Polycyclic Aromatic Hydrocarbons (PAHs)

Substances	CAS No.	Substances	CAS No.
Benzo(a)pyrene	50-32-8	Cyclopenta(c,d)pyrene	27208-37-3
Acenaphthylene	208-96-8	Dibenzo(a,h)anthracene	53-70-3
1,2-dihydro-acenaphthene	83-32-9	Dibenzo(a,h)pyrene	189-64-0
Anthracene	120-12-7	Dibenzo(a,i)pyrene	189-55-9

Benzo(k)fluoranthrene	207-08-9	5-Methylchrysene	3697-24-3
Chrysene	218-01-9		

- Alkylphenol-tin Compounds [Tributyl-tin (TBT), dibutyl-tin (DBT), monobutyl-tin (MBT) or any other organo-tin compounds]

- Alkylphenol, ethoxylates such as Nonylphenol (NP, CAS No. 25154-52-3), Nonylphenol ethoxylates (NPE) and Trinonylphenyl Phosphite (TNPP) or estrogen-mimicking compounds

- Bensophenones (CAS No. 119-61-9), 4-methylbenzophenone (CAS No. 134-84-9) and Hydroxybenzophenone

- Bisphenol A (BPA) / 4,4'-isopropylidenediphenol (CAS No. 80-05-7) / Bisphenol S (BPS) / Bisphenol F (BPF)

- Benzotriazole (CAS No. 3846-71-7) and 2-Mercaptobenzothiazole (MBT) (CAS No. 149-30-4)

- Butylated Hydroxyanisole (BHA) (CAS No. 121-00-6 and 25013-16-5)

- Butylated Hydroxytoluene (BHT) (CAS No. 128-37-0)
 - Semicarbazide
 - Dimethylfumarate (DMF)
 - Tris (2-chloroethyl) phosphate (TCEP) (CAS No. 115-96-8)
 - Refractory ceramic fibers (RCFs)
 - Boric Acid (CAS No. 10043-35-3)
 - Disodium tetraborate Anhydrous (Borax) (CAS No. 1330-43-4)
 - Dimethylfumarate (DMF)
 - Tris (2-chloroethyl) phosphate (TCEP) (CAS No. 115-96-8)
 - Refractory ceramic fibers (RCFs)
 - Boric Acid (CAS No. 10043-35-3)
 - Disodium tetraborate Anhydrous (Borax) (CAS No. 1330-43-4)
 - Azo Colorants or Azo Pigments
 - Triclosan
 - Epoxidised soyabean oil (ESBO)
 - Genetically Modified Organisms (GMO)
 - Methyl-4-Methybenzene sulfonate (CAS No. 80-48-8)
 - N,N-bis(2-hydroxyethyl)alkyl(C8- C18) amines [Armostat and Atmer163 (CAS No. 70955-14-5)]
 - Chlorinated organic compounds
 - Bis(2-ethylhexyl)adepate (DEHA)
 - Cobalt (II) chloride (CAS no. 7646-79-9)
 - Epichlorohydrin (CAS No. 106-89-8)
 - Other Heavy metals and its compounds
 - Formaldehyde
 - Methyl Bromide (CAS No. 74-83-9)
 - Natural rubber latex / dry natural rubber
 - Polybrominated Terphenyls (PBTs)
 - Asbestos and Mica
 - Melamine
 - Dioxins and Furans
 - Acrylamide (CAS No. 79-06-1)
 - Recycled Materials
 - Perchlorates (CAS No. 14797-73-0)
 - PIP (3:1) Phenol, isopropylated, phosphate (3:1) (CAS No. 68937-41-7)
 - 2,4,6-Tris(tert-butyl)phenol (CAS No. 732-26-3)
 - Hexachlorobutadiene, HCBd (CAS No. 87-68-3)
 - Pentachlorothiophenol, PCTP (CAS No. 133-49-3)
 - Nitrosamines or Nitrosamine forming agents
 - List of substances subject to Certain Hazardous Chemicals and Pesticides - Rotterdam Convention
- 52 chemicals listed in Annex III, 35 pesticides (including 3 severely hazardous pesticide formulations), 16 industrial chemicals, and 1 chemical in both the pesticide and the industrial chemical categories.

Senior Technical Service Manager

Technical Service and Product Development

IRPC Public Company Limited or "IRPC" offers its products under the terms, conditions and notices as follows:-

Term of use

This product is offered to you conditioned upon your acceptance without modification of the terms, conditions, and notices contained. The information contained in this document refers to the product mentioned herein only. The product can be used only for the application as specified herewith. All represented values are from internal laboratory, measured at production, accurate as of the issuing date, and the value diversify may occur. IRPC shall in no event be liable for reliability / accuracy / completeness of the contained information. It is the customer responsibility to inspect test / trial the product for satisfy as for particular purpose, for the appropriate, safe and legal use, processing and handling of the products. IRPC shall not be liable for any damage or injury arising from the failure to adhere to the safety guidelines and recommendations stated herein or subsequently published by IRPC, abnormal practice, use of products in conjunction with other materials, modification, or any inherent hazards with respect to the product.

Use Limitation / Recycling

The product is ready for use shall limit in specified application. Other modified applications are not designed for the product mentioned in this document is recyclable as a clean and homogeneous material. It is not recommended to mix recycling product with other material. Recycle material may not have material properties equivalently to original material. You may not copy, distribute, transmit, display, perform, reproduce, publish, license, create derivative works from, transfer, or sell any information from IRPC website or its products, data or information.

Limitation of Liability

In no event shall IRPC be liable for any direct, indirect, punitive, incidental, special consequential damages, to property or life, whatsoever arising out of or connected with the use or misuse of its products.

Disclaimer

The data indicated above are the results of IRPC's examinations, knowledge and correspond to the state of the art as of the date of publication and the data refers to the state of the related laws and regulations as of the date of issue. Only additives used in the pelletizing process were evaluated in this document. This information will expire after a break in delivery lasting more than 12 (twelve) months or in case of regulatory changes. This "Statement" is provided and subjected to IRPC's terms and conditions and IRPC reserves the right, in its sole discretion, to amend the product specification(s) at any time. This "Statement" is not intended and shall not be construed as specification, warranty, expressed or implied, or representation of any kind that IRPC would have any legal responsibility or liability. The applicability, accuracy, completeness, reliability, usability, availability, validity with respect to the data or information under this Statement and/or the suitability of IRPC's products cannot be guaranteed for any purpose. IRPC gives no guarantees or makes no warranties of any kind, express or implied, including, but not limited to, any warranties of merchantability, satisfactory quality, non-infringement or fitness for a particular purpose, whether arising by operation of law or otherwise. In the case that IRPC's products are used in combination with other materials, no liability admitted. When not utilized in combination with any third-party products, the information mentioned above refers only to IRPC's products. It is the customer's responsibility to inspect and test IRPC's products in order to satisfy itself as to the suitability of the products for the customer's particular purpose.

The customer shall be responsible for the appropriate, safe and legal use, processing and handling of IRPC's products. IRPC shall not be liable for any false, inaccurate, inappropriate or incomplete data or information presented on this Statement. Please do not hesitate to ask IRPC for new information if needed. All terms and conditions regarding the supply of IRPC's products shall be subjected to IRPC's Policy. In the event that any dispute arises, IRPC's decision is final and not subject to appeal.

Other Statements

IRPC employees or representatives, oral or other written statements, do not constitute warranties, shall not be relied upon by buyer, and is not part of the contract for sale or this limited warranty.

Entire Obligation

The term of use, warranty and disclaimer document states the entire obligation of IRPC with respect to the products. If any part of this disclaimer is determined to be void, invalid, unenforceable or illegal, including, but not limited to the warranty disclaimers and liability disclaimers and liability limitations set forth above, then the invalid or unenforceable provision will be deemed superseded by a valid, enforceable provision that most closely matches the intent of the original provision and the remainder of the agreement shall remain in full force and effect.

Applicable Law and Jurisdiction Agreement

This disclaimer statement is governed by the laws of Thailand. You hereby consent to the exclusive jurisdiction and venue of the Courts of Thailand, in all disputes arising out of or relating to the use of this product. Use of this product is unauthorized in any jurisdiction that does not give effect to all provisions of these terms and conditions, including without limitation this paragraph.

Modification of Term and Conditions

IRPC reserves the right to change the term, conditions, and notices under which their products are offers.
